About the Test

[Back to Dashboard](#)

The GED® test evaluates your skills and knowledge in 4 different subjects.

[Reasoning Through Language Arts](#)

[Science](#)

[Social Studies](#)

[Mathematical Reasoning](#)

The Reasoning Through Language Arts test:

- is 150 minutes
- consists of 3 sections
- includes a 10-minute break between sections 2 and 3
- includes one **essay** that you have 45 minutes to write

Measures your:

- ability to read closely, write clearly, and edit and understand written English
- ability to understand, interpret, and answer questions based on text
- ability to use evidence to support an argument
- understanding of basic English skills at a level needed to succeed in college or a job

Questions about the test

Do I have to take all 4 subjects at once?

No! You can study for and take one subject at a time. That way you can focus and do your best. It's also easier to pay for one at a time! If you want to take two, three, or all four tests at the same time, you can do that too. It's your choice.

Is the test available in languages other than English?

Yes, the GED® test is also available in Spanish, but states have different rules about the Spanish test. In South Carolina and South Dakota, the Spanish test isn't allowed. Your state may have other policies about the GED® test. [Check your state's policies here.](#)

How much is the test?

Cost varies by state, but you can pay for it one subject at a time. The cost ranges from \$4 - \$35 per subject, depending on where you test. Didn't pass on your first try? Don't worry. We'll help pay for your retakes! Get \$20 off two retakes per subject (and your state may give you more). [Learn more about discounted retakes.](#)

Tips for Test Day

[What to Bring](#)

[Tour the Test](#)

[Calculator](#)

[Noteboard](#)

Schedule a lunch break on test day

› If you schedule more than one subject in the same day, you will not receive a lunch break automatically. To schedule a lunch break, schedule each subject separately so that you have time in between tests.

Change or cancel appointments at least 24 hours before

› You must change or cancel your test at least 24 hours before your appointment time or else you will lose your payment. If you cancel your appointment with less than 24 hours notice or do not show up, you will not receive a refund.

Arrive early

- › Make sure you know where the testing center is and arrive at least 30 minutes prior to your scheduled GED® test appointment
- › You will need to check in when you get there
- › If you arrive more than 15 minutes after your scheduled appointment time, you may not be admitted and may lose your test fee

Know the test center rules

- › You will not be allowed to eat, drink, smoke, or use your cell phone during your test
- › Cell phones are strictly forbidden in the testing room. If you are found with a cell phone during testing, you will be escorted out and your test will not be scored. You will also need to reschedule and pay for another test.
- › When you schedule more than one subject in the same day, you will automatically be given a ten-minute break in between tests. Unscheduled breaks are not allowed and your test may not be scored if you leave the room during an unscheduled break.
- › During scheduled breaks and lunches, you may access your personal items
- › If you need to leave the room, have questions about the test, or are experiencing problems with your computer, raise your hand and notify the test administrator
- › If your friends or family come with you, they will not be allowed in the testing room. Testing centers may not have waiting areas and they may not be permitted to wait.

Be prepared

- › Get a good night's sleep and eat before you come so you can focus
- › Dress comfortably and plan to leave most of your personal items at home
